

AZAD MUMTAZ ANSARI

Python Developer · AI Automation · Full-Stack Engineering

+91 7208434724 | ansariazadcs232421@gmail.com | Mumbai, India | github.com/ansariazad | LinkedIn | ansariazad.github.io

SUMMARY

Results-driven Computer Science graduate with 1.5+ years of professional experience in operations and data management. Skilled in Python development, AI automation, and full-stack web applications. Built production-grade AI systems including an autonomous content pipeline and an LLM-powered agent with 32+ tools. Seeking a software development role to drive impact through engineering.

PROFESSIONAL EXPERIENCE

Operations Associate — DMart (Avenue Supermarts Ltd)

Feb 2024 — Nov 2025

Mumbai, India

- Processed 500+ daily transactions with **0% error rate**, maintaining complete database accuracy across billing systems
- Executed complex inventory and billing workflows following strict SOPs, ensuring **100% database integrity**
- Resolved high-pressure customer and stakeholder queries, building strong analytical and communication skills

Research & Data Intelligence Specialist — Independent

Dec 2025 — Present

Mumbai, India

- Built structured research methodologies for identifying and qualifying digital assets and partnership opportunities
- Designed **Google Sheets dashboards** for tracking competitor metrics and delivering actionable market intelligence

TECHNICAL PROJECTS

AutoShorts — AI Content Automation Engine

Python, Groq, FFmpeg, YouTube API

- Built fully autonomous pipeline: LLM script generation → quality validation → TTS synthesis → video assembly → YouTube upload
- Designed SQLite deduplication engine with topic/clip cooldowns; runs **4 videos/day with zero intervention**

ClawBot — Autonomous AI Mac Agent

Python, LLM Agent, Telegram API

- Engineered AI agent with **32+ tools** for system control, trading, messaging, and file management via Telegram
- Implemented LLM tool-calling architecture with JSON reasoning chain, multi-tool chaining, and security layer

EAHP — Emergency Ambulance Hiring Portal

Next.js, React, Supabase, Leaflet.js

- Developed full-stack platform with real-time GPS tracking, admin RBAC dashboard, and PDF report generation
- Migrated legacy PHP/MySQL monolith to modern Next.js + Supabase stack with auth middleware

CryptoWatch — Crypto Dashboard

Python, Flask

TaskFlow — REST API

FastAPI, JWT

- Real-time dashboard tracking 50+ assets with charts, portfolio calculator, and email price alerts
- Production REST API with JWT auth, token rotation, RBAC, filtering, and Swagger docs

TECHNICAL SKILLS

Languages	Python, JavaScript, PHP, C#, SQL, Bash, HTML/CSS
AI / Automation	LLM Prompt Engineering, Groq API, Ollama, Edge-TTS, FFmpeg, n8n Workflows
Web / Backend	FastAPI, Flask, React.js, Next.js, REST API Design, Supabase, JWT Authentication
Databases	SQLite, MySQL, PostgreSQL (Supabase)
Tools	Git, GitHub, VS Code, Vercel, YouTube Data API, Cron Jobs, macOS, Linux CLI
Microsoft Office	Excel (Pivot Tables, VLOOKUP, Dashboards), Word, PowerPoint, Google Sheets
Soft Skills	Problem Solving, Analytical Thinking, Team Collaboration, Self-Learning, Technical Writing

EDUCATION

Bachelor of Science (BSc) in Computer Science

2023 — 2026

Sheth L.U.J College of Arts & Sir M.V. College of Science & Commerce, Mumbai

HSC (12th) — Science

2022

V.P.M.'s Valia College of Arts, Commerce & Science, Mumbai

SSC (10th) — 65%

2020

Airport High School, Mumbai · Maharashtra Board

ADDITIONAL

Languages	English (Professional), Hindi (Fluent), Marathi (Native)
Portfolio	ansariazad.github.io — 6 live projects with source code
Availability	Immediate joiner — Open to Full-time, Part-time, and Internship roles
